

What exactly is 'Intervention'?

After 3<sup>rd</sup> period daily, a block of time from 9:44-10:14 can be used by students and teachers for intervention purposes. This block of time is used on Wednesdays for club meetings.

1) Any teacher can request for a student to attend Intervention by giving that student a pass; in this case, attending Intervention is not optional as the teacher has requested attendance. Failure to attend will then result in disciplinary action.

2) Any student can request a pass from a teacher to finish work, make up tests/quizzes/assignments, receive extra assistance, conference with EE advisor, etc.; in this case, the student needs to ask for a pass from the teacher and must attend when the teacher has space available.

3) Any student without a pass remains in his/her 3<sup>rd</sup> period class for that time period and can treat that time like a study hall.
