

# MARCH

Mrs Boysen's Math and Science

March 20-24

## Our LEARNING

### Eureka Math:

#### Module 7 - Geometry and Measurement Word Problems

**Lesson 12-17:** Finding total perimeter and unknown measurements.

*Review/Reteach: Elapsed time; solving multi-step word problems*

### Science:

*How and why do organisms interact with their environment and what are the effects of these interactions?*

**Plant study:** Students will study the life cycle of a plant and how external factors affect plant growth.

*Review/Reteach: Weathering/Erosion; Types of Energy; Body systems*

## Upcoming EVENTS

March 13-17: Spring Break

March 20: Return to school

April 17: TN Ready Testing Begins

May 12: 3rd Grade Field Trip to the Memphis Zoo

## Homework OF THE WEEK

*No math or science homework this week!!*

## Teacher's NOTE

Hello Parents,

I decided to send home I-Ready Math Instructional books after Spring Break. This will be an opportunity for students to work in areas they need improvement.

Most of the students struggle with elapsed time and word problems. There are several units on that skill. Please have your child choose a couple problems in each unit for extra practice. This is not mandatory of course but can be helpful to prepare for the TN Ready test coming in mid April.

We have a field trip in May. I will send home details in the Wednesday folder on March 22. Have a wonderful Spring Break!
