Simply use colored paper, one die and a marker to create a stepping-stone for every letter of the alphabet or however many you have room for. You can even include “ch” and “sh” pieces for more advanced learners. For the game, your child will roll the die, take the allotted number of hops and say and pronounce the letter that they land on.</p>	<p>Alphabet ball</p> <p>First, the adult calls out a letter and the child responds with a word that begins with that letter. Then, the adult throws the ball to the child and the child gives the adult a letter to find a word for, and on and on. You can make the game even more fun by kicking the ball or chasing each other to tag with the ball. You can also play rhyming ball, where the thrower provides a word for the catcher to rhyme with.</p>	<p>Phonic photo scavenger hunt</p> <p>Have your scholar create a photo album, either physical or digital, with a photo of an item for every letter sound: “a” for anthill to “z” for zoo. This is an easy way to keep the learning flowing. This can be done again and again to learn new sounds like “ch” or “sh” and other blends.</p>	<p>Say two words</p> <p>This activity allows kiddos to stretch their legs and get some energy out. When you say two words that begin with the same sound, they should stand up as fast as they can, but stay seated if the words do not begin with the same sound. If playing with more children, you can create an elimination system, so that there’s one clear winner determined.</p>	<p>Spring/Holiday Good Friday</p>
