

As a Science, Engineering, and Technology (SET) school, our students receive hands-on, real-world experiences that prepare them for college and career.

Keystone Elementary School (1-5)

Science, Engineering, and Technology

Our SET teaching and learning depends on inquiry and technology learning activities and lessons related to the real world in an outdoor classroom, science lab, and technology lab.

Points of Pride

- Our talented and inspiring teachers, some of whom are National Board Certified, instill confidence in students to be creative and critical thinkers.
- Students benefit from enriching experiences weekly in Encore classes including computer, music, art, physical education, and library.
- Partnerships with Memphis-Shelby PAL, CHIPP Program, Officer Nailor, Messiah Fellowship Church of God in Christ, and Kappa Epsilon Psi Military Sorority

Academics

- Caring and dedicated teachers who support academic, emotional, social, and physical growth for all students
- School-wide educational focus on Science, Engineering, and Technology (SET) – our SET science lab provides real-world application through hands-on interactive activities.
- Full-time technology teacher provides instruction and experience with Amazon BootUp coding, keyboarding, and Microsoft Word, Excel, and PowerPoint.

Activities

- Amazon Future Engineer Program
- SET exhibitions
- KESTV Student News Crew, KDAT (Keystone Dynamic Announcements Team), Gardening Club, Music Ensemble, and Technology Club
- Field Day, multicultural celebrations, and after-school tutoring
- Orff music and art shows
- Inquiry Math and Science Night
- Outdoor classroom garden and greenhouses give students the opportunity to grow and harvest healthy fruits and vegetables.
