****Student Support and Services | Best for All Strategic Plan alignment: Student Readiness****

Schools, in partnership with parents and the community, can create a positive, child-centered learning environment which provides support to students to remove the barriers to learning that students in high opportunity schools often experience. Supporting the whole child begins with eliminating barriers to physical and mental health, well-being and learning; then planning for and implementing strategies which support the emotional, physical, mental, cognitive and social development of students.

District Turnaround Plan Goal

[G 1] CSI schools will reduce chronic absenteeism rates from approximately 36% in 2024 to approximately 26% in 2025 with clearly defined systems and operating procedures for monitoring identified at-risk and chronically absent students weekly.
