

A little story about my family

September Family Project Due _____

Family projects are designed to involve each member of the family in your child's development as a learner. This month's family project is to together create a "Family Banner." The idea is to create a banner that somehow shows your what makes your family special. Your child will be sharing their banner with the class before putting them all on display in the hall.

- *Begin with each member of your family tracing their hand on the attached paper. Put them in any order that you'd like.
- *Be creative to decorate around each hand using markers, stickers, sequins, or whatever else you have that would make your banner look festive.
- *Everyone needs to write their name on their own hand, and inside it, draw something special about them. Be sure to write a few words to describe them as well.
- *Put finishing touches on the banner by adding stickers, small photos of your family, or anything else that would tell us more about what makes your family special.
- *Be sure at the top to label it with your family's name, for example "The _____ Family Banner."
