

Student: _____

Q2 Blending/Deleting Syllables to form Compound Words Assessment Date: _____

Teacher Administration Directions: Compound words are when two or more words combine to form a new word. If I have the two words, rain (right palm up) and bow (left palm up) and I put the words together, I get the compound word, rainbow. If I break apart the compound word rainbow, I get the two words, rain and bow. Your turn: you have the two words star and fish. If you put the two words together, what compound word do you make? If you break apart rainbow, what two words do you have?

I will say two words. You will put the words together and say the compound word.
